

Our Mission

Dignity Resource Council was founded on the belief that treating people as having God-given worth and personal dignity improves quality of life. This holds true regardless of age or ability.

We believe it is possible to see dignity, not only with an honoring attitude, but also with proper and respectful dignity garments specifically designed for the most intimate of care.

There are many care facilities desiring to offer their residents dignity and privacy, but are unaware of our resources that would allow their residents a respectful cover during bathing and other personal care.

Dignity Resource Council can help. Spread the news, as together we can bring quality of life changes and raise the standard of care.

Dignity Resource Council

We are a non-profit 501(c) (3) organization with the mission to provide educational and public awareness of the need for dignity preservation for children and adults needing assistance with bathing and other personal care.

Our goal is to change the way people are treated, improving quality of life with respectful dignity garments specifically designed for the most intimate of care.

Dignity Resource Council

"Dignity is our focus,
improving quality of life is
our mission"

Dignity is like a warm sunset that covers us with a beautiful glow of appreciation. ...And who wouldn't like to be seen in a good light?

What is an Honor Guard?

An Honor Guard is a personal hygiene accessory specifically designed to protect privacy during assistance in the shower or while bathing.

The original personal care garment was designed by our Founder Robin Lenart for her mother which she aptly named Honor Guard. It works wet or dry and also is useful during clothing changes or while on the commode.

The garment provides hygiene help without humiliation of being fully exposed. The unique three flap design allows a caregiver easy access to intimate areas, while remaining covered.

Both care recipients and caregivers can now feel comfortable during assistance with the modest coverage the Honor Guard provides. Visit our website for more information.

www.dignityrc.org

No more embarrassment.

Enjoy a shower without the fear of being exposed or embarrassed. The Honor Guard gets wet with you during bathing and protects your privacy.

A terry cloth version called Terry Topper helps with the drying and dressing process as it covers the wet garment after bathing is done and it's time for dressing into dry clothes.

Simply cover and remove the wet garment right under the dry Terry Topper. It's absorbent terry-cloth dries the skin and allows privacy when undergarments are slipped on. If a bed bath is preferred, the Terry Topper is ideal. The design allows for easy and modest clothing changes too.

Love Covers

The Love Covers program allows caregivers or care recipients who desire a personal care garment to receive one free or at reduced cost. We do not want anyone to go without due to financial burden.

Love covers program will continue as our funds allow, so please remember us with your efforts so we may continue our mission to serve those who need it the most.
